

# Manufacturer Standard Gear Rod Lengths

All of the below gear rod lengths are for OEM fitments and do not include any aftermarket rear set applications. Please bear in mind that the rod is adjustable and the new rod length does not need to be exactly 55/60mm shorter as there is plus or minus adjustments via the splines.

	<b>Standard</b>	<b>Super Lite – 60mm</b>	<b>Plus/Plus SS/ - 55mm</b>
<b>Honda</b>			
CBR600RR 2003-2006	180mm	120mm	125mm
